Public information meeting on July 24, 2001

You are invited to a public information meeting for the US 12 project on Tuesday, July 24, 2001 at the Middleton High School Student Center, 7400 North Avenue, Middleton, Wisconsin, from 5-8 p.m. Meeting exhibits will detail the highway's route, public and private access points and construction staging and schedule. The three-hour meeting will be an open-house format so please come when it is convenient for you. Design engineers and WisDOT real estate and project management staff will be on hand to answer questions.

Real estate acquisition proceeding

Wisconsin Department of Transportation real estate staff and the contracted appraisers continue to work with affected property owners on the US 12 project. The 28 parcels needed for the first construction contract, (County KP – WIS 19 West), will be acquired by this August. Parcels in the section between WIS 19 West and County K will be acquired by October 2002. In the Middleton Bypass area it is estimated that real estate will be completed by April 2002. In the Sauk City – County KP section, appraisers will be starting to set appointments with property owners later this summer after appraisal staking is done.

Construction begins in 2002 on Springfield Hill

Next February, contractors will submit bids to WisDOT to compete for the first US 12 construction contract. The first contract will build US 12 on a new location over Springfield Hill, from WIS 19 West to County KP. Work will start in late spring. Motorists will not have to deal with construction work zones for most of 2002, until construction equipment needs to cross existing US 12.

Project Construction Schedule

Road Section	2001	2002	2003	2004	2005
Wis River Bridge					
Sauk City Bridge Approach / Intersection					
Bridge to County KP
